

Tiago Rodrigues takes iDANS stage with Mundo Perfeito

The fifth annual iDANS Festival will encompass diverse expressions of contemporary art, dance, theater, music and performance art and will take place at multiple venues in Istanbul between Sept. 30 and Oct. 23. Within the program of the festival Tiago Rodrigues will be onstage. The conceptual framework of the 2011 iDANS, organized around a curatorial theme and presented annually by Bimeras Cultural Foundation, was named "At Work."

The program events were devised to show to what extent each step in the creation a contemporary performing arts work can be considered as "work;" how the notion of "immaterial labor" as the predominant mode of production in current economies is reflected in the conception, implementation and organization of artistic processes.
